Training Programme Report 2024-25

Activity: One Day-Training Programme for B.Sc. I, II and III year in Krishi Vigyan Kendra, Buldhana-I (Jalgaon jamod)

Date: 08/04/2025

Time: 10.30am to 05.30pm

Participants: 21 Students and 2 Staff.

Objective: As per the MoU Signed between our college and KVK, Jalgaon jamod, training programme was organized by KVK, Jalgaon jamod.

1. Preservation of natural flora and fauna.
2. Restoration of Soil fertility through promotion of nutrient recycling.
3. Maintaining diversity of crop production.
4. Efficient utilization of natural resources (Soil, air, water).
5. Promotion of local breeds of Livestock integration.
6. Use of on farm produced Natural inputs.
7. Reduce input cost of agricultural production.
8. Improve economy of farmers

Venue: Krishi Vigyan Kendra, Buldhana-I (Jalgaon jamod).

Programme Highlights:

One Day-Training Programme on Poultry, Goat and Organic Farming was conducted on 08/04/2025 by KVK, Jalgaon jamod. The scientists of different discipline organized and helped in the successful organization of the training programme. The inauguration of the training programme was done in KVK'S Seminar Hall. Jr. Scientist Shyamsundar Borde have given a brief introduction of working of KVK on Taluka, District, State and Central level. They organize near about 300 training/ workshops on different aspects related

to agriculture for farmers/ working women's per year. He briefly explained the different areas and working of the scientist in KVK.

Before the training programme they took the students for visits to different units/ ongoing projects like Goat farming Unit, the Poultry Unit, the Horticulture Unit, the central water distribution unit, Dal Mill, Agriculture instrument and machine unit etc were briefly explained by Jr. Scientist. Vinod Janorkar, Shyamsundar Borde, Shashank Date.

On Field, the demonstration was given by a Jr. Scientist. Vinod Janorkar as he gives detail information about poultry farming and goat farming to students. Goat is a multi-functional animal and plays a significant role in the economy and nutrition of landless, small and marginal farmers in the country. Organic Farming is a farming method that involves growing and nurturing crops without the use of synthetic-based fertilisers and pesticides. Also no genetically modified organisms are permitted. It relies on ecologically balanced agricultural principles like crop rotation, green manure, organic wastes, biological pest control, and mineral and rock additives.

Outcome:

1. Students are aware of different ongoing projects in KVK.
2. Students get practical knowledge about small startups like poultry farming and other livestock farming.
3. Students understood the importance of Goat Farming.
4. Students got detail knowledge about Poultry Farming.
